

FemFest 2022

For Young Women Change Makers

**Sat
19th
Nov**

Welcome to FemFest 2022

We know that the voices, perspectives and experiences of young women are of paramount importance to the feminist movement.

The aim of FemFest is to support young women in their role as leaders, providing a unique space to tackle inequalities and collaboratively determine a more equal and feminist future. FemFest is also significant in informing NWC's work to advance equality for women and girls.

Throughout the day, panel events and roundtable discussions will help to challenge the gender inequitable attitudes, beliefs and cultural norms which support harassment, violence and abuse, and ultimately improve bystander behaviour as we work toward a zero-tolerance culture. We hope today can provide inspiration and solidarity, and can equip you with the tools you need to become a changemaker.
